

Smart Infusion Therapy

What Materials Are Your Infusion Products Made From?

In veterinary medicine, the materials used in infusion therapy can have a profound impact, especially in high-risk procedures involving neonates, critical care, and long-duration infusions. One such material under global scrutiny is **DEHP (Di(2-ethylhexyl) phthalate)**, a plasticiser commonly used in PVC-based medical devices.

B. Braun's Commitment to Safety

Although not mandated in Australia, B. Braun has proactively converted its entire infusion therapy portfolio to DEHP-free materials, with no change in part numbers or pricing. This reflects a deep commitment to patient safety, environmental responsibility, and the professionals who care for animals every day.

Spotlight Products

Item Code	Description	Image
4251318	Introcan Certo IV catheter 22g x 25mm 1" blue	
471954	T-port small-bore extension set	
9500065	Minimum-volume extension line with clamp 140cm LL	
8723025	Perfusor line, PE, Magenta tube, LL,150cm - extension line for IV administration, compatible with syringe pumps	
4063004	Intrafix Safeset P - IV administration set with safety features Airstop and Primestop	
4495209	Combi-stopper White for closing infusion systems, e.g., syringes, IV-sets or IV-catheters	
4238010	In-stopper closing cone stopper with injection port	
16494C	Discofix C, 3-way tap	

Ordering Information

Category	Item Code	Description
Injection Ports	4097154N	Safeflow IV extension line with LL injection port
	4094000N	Infuvalve Back-Check Valve. A one-way IV valve that prevents backflow during infusion
	470106-01	Small bore Y-extension tubing, 2 x Caresite with spinlock, 18cm
3-way Taps	16551C	Discofix C, 3 Blue, 75cm tube multidirectional stopcock with tubing for infusion therapy
Closing Cones	4495152	Combi-stopper Blue for closing infusion systems, e.g., syringes, IV-sets or IV-catheters
	4495101	Combi-stopper Red for closing infusion systems, e.g., syringes, IV-sets or IV-catheters
Standard Bore Extension sets	4034589	Heidelberg extension IV tubing 70cm with 2 injection ports LL
	4033809	Heidelberg extension IV tubing 22cm with slide clamp
	4055136	Heidelberg extension IV tubing 140cm
	4055128	Heidelberg extension IV tubing 75cm
	9500103	LS-2 connector; brings two lines into one pathway.
Minimum Bore Extension Sets	9500057	Minimum volume extension line with clamp 75cm LL
	8723020	Perfusor line, PE, Blue tube, LL, 150cm - extension line for IV administration, compatible with syringe pumps
	8723021	Perfusor line, PE, Blue tube, LL, 200cm - extension line for IV administration, compatible with syringe pumps
	8723026	Perfusor line, PE, Magenta tube, LL, 200cm - extension line for IV administration, compatible with syringe pumps
	8723023	Perfusor line, PE, Green tube, LL, 150cm - extension line for IV administration, compatible with syringe pumps
	8723024	Perfusor line, PE, Green tube, LL, 200cm - extension line for IV administration, compatible with syringe pumps
Giving Sets	4062181	Intrafix Primeline IV set with Y-site injection port
	4061276	Exadrop IV admin set 150cm LL - IV administration set with precision IV flow regulator for gravity infusions with needle free access port
Burettes	4037012	Dosifix Safeset IV administration set 250cm with Airstop and needle-free access port
	4037034	Dosifix 150ml burette 70cm - IV administration set with needle-free access port
Transfusion	4100514	Sangofix blood transfusion set 180cm, Y-site needle-access
IV Catheters	4251300	Introcan Certo IV catheter 24g x 19mm 3/4" - Yellow
	4251326	Introcan Certo IV catheter 20g x 32mm 11/4" - Pink
	4251334	Introcan Certo IV catheter 18g x 45mm 13/4" - Green
	4251342	Introcan Certo PUR (Polyurethane) IV catheter 18g x 32mm 11/4 - Green
	4251350	Introcan Certo PUR (Polyurethane) IV catheter 16g x 50mm 2" - Black
	4251369	Introcan Certo PUR (Polyurethane) IV catheter 14g x 50mm 2" - Orange
	4253302	Introcan Certo PUR (Polyurethane) IV catheter 24g 3/4" with fixation wings - Yellow
	4253337	Introcan Certo PUR (Polyurethane) IV catheter 18g x 1 3/4" with fixation wings - Green
	4269071	Vasofix Certo IV catheter with injection port 24g 19mm - Yellow
	4269098	Vasofix Certo IV catheter with injection port 22g 25mm - Blue
	4269110	Vasofix Certo IV catheter with injection port 20g 33mm - Pink
	4269136	Vasofix Certo IV catheter with injection port 18g 45mm - Green
	4269179	Vasofix Certo IV catheter with injection port 16g 50mm - Black
